Private Baseball Lessons in the South Bay

In an effort to stay busy during the offseason, make money, and help baseball players of all ages around the South Bay improve their game, I am offering private baseball instruction from October 2010 - May 2011. After playing with and against some of the best Little League, Pony, High School, College, and Professional Baseball talents throughout the country, I have witnessed and experienced what makes the best players so great. It is these drills, mechanics, and mindsets that I would like to share with you.

Over the last few years, I've noticed something about baseball: the Steroids Era is over. The current generation of elite players are the ones who have mastered the fundamentals of the game and have a clear understanding that raw talent, power, and skill, can only take them so far. The players who love to play, strive to improve, and understand above everything else, regardless of age, that baseball is and always will be a kid's game, are the ones who will not only succeed but enjoy this game for all eternity!
